Monument Valley 2 Launches Exclusively on iPhone and iPad

Following the release of Monument Valley in 2014, ustwo Games is proud to announce Monument Valley 2 is available now exclusively on the App Store for iPhone, iPad and iPod touch.

Set in the same universe, Monument Valley 2 tells the story of a mother and child as they embark on a journey of discovery through a stunning and impossible world.

Players will explore ever-changing landscapes, mechanics that surprise at every turn and an evolving parent-child relationship.

The team at ustwo Games have drawn inspiration from a variety of sources including mid-century illustration, theatre, toy design and even confectionary. The end result is a game in which every chapter is unique, every sound is engaging, and every moment is beautiful.

Building upon the success of 30 million downloads, critical acclaim and being played by a fictional president – Monument Valley 2 seeks to again expand the audience of people who consider themselves video game players.

Dan Gray, head of studio at ustwo Games says, “We wanted to find the perfect reason to return to Monument Valley, and the story of a mother who’s not only a parent but a creator of this world is a narrative we felt compelled to tell. We spent two years hiring some of the industry’s most talented people for this team, and we’re excited to show this whole new take on a game fans have been asking for.”

Monument Valley 2 is available for \$4.99/£4.99 from the App Store on iPhone, iPad or iPod touch.
